Online Safety Pupil Agreement KS2

This is how we stay safe when using computers.

S	M	A	R	T
Safe to share	**Message**	**Age**	**Reliable**	**Take action**
Think about what information you are sharing with others. *What information should you keep a **secret**?*	Think about **who** and **what** you are **messaging**. *Are you **messaging** a trusted person? Are your **messages** kind? What **message** are you presenting about yourself online?*	You should only access **age**-appropriate apps, games and entertainment. *Is it designed for your **age**?*	Not everything online is **reliable**. You also need to consider whether emails and messages you are sent with links or attachments are safe and from a **reliable** source. *Does the website look reliable? Do you trust where the email came from?*	If you feel early warning signs, you must **take action** and tell a trusted adult. You also might not like what someone is saying or doing online. If you are ever unsure, talk to a trusted adult.
