## 1. Introduction

All public authorities, including schools and academy trusts, are required under the Freedom of Information Act to adopt a publication scheme that the Information Commissioner's Office ([ICO](#)) has approved. ODST Trustees have adopted the Model Publication Scheme below in its entirety. The implementation of this policy has been delegated to the headteacher and monitoring of its implementation to the Local Governing Body.

The scheme sets out ODST's commitment to make certain classes of information routinely available, such as policies and procedures, minutes of meetings, annual reports and financial information.

## 2. ICO Model Publication Scheme

# Model publication scheme

## Freedom of Information Act

This model publication scheme has been prepared and approved by the Information Commissioner. It may be adopted without modification by any public authority without further approval and will be valid until further notice.

This publication scheme commits an authority to make information available to the public as part of its normal business activities. The information covered is included in the classes of information mentioned below, where this information is held by the authority. Additional assistance is provided to the definition of these classes in sector specific guidance manuals issued by the Information Commissioner.

The scheme commits an authority:

- To proactively publish or otherwise make available as a matter of routine, information, including environmental information, which is held by the authority and falls within the classifications below.
- To specify the information which is held by the authority and falls within the classifications below.
- To proactively publish or otherwise make available as a matter of routine, information in line with the statements contained within this scheme.
- To produce and publish the methods by which the specific information is made routinely available so that it can be easily identified and accessed by members of the public.
- To review and update on a regular basis the information the authority makes available under this scheme.
- To produce a schedule of any fees charged for access to information which is made proactively available.
- To make this publication scheme available to the public.

- To publish any dataset held by the authority that has been requested, and any updated versions it holds, unless the authority is satisfied that it is not appropriate to do so; to publish the dataset, where reasonably practicable, in an electronic form that is capable of re-use; and, if any information in the dataset is a relevant copyright work and the public authority is the only owner, to make the information available for re-use under the terms of the Re-use of Public Sector Information Regulations 2015, if they apply, and otherwise under the terms of the Freedom of Information Act section 19.

The term 'dataset' is defined in section 11(5) of the Freedom of Information Act. The term 'relevant copyright work' is defined in section 19(8) of that Act.
